THEY ALL DO IT.

What Railroad Officials Have to Confront With.

"Why is it," remarked a ticket seller the other day, "that no one considers it wrong to beat a railroad company? No matter who they are, in nine cases out of ten, travelers have an idea that, next to becoming a missionary, beating the company is as praiseworthy a thing as they can do. Just a few days ago one of the most prominent business men here in Janesville, a man who can draw his check for enough to buy a fair-sized road, trial on one of these underhand schemes. Last New Year's the company gave him a pass, and since then he has used it on an average about once a week. Even that didn't satisfy him and so one day when he had to send a clerk down to Chicago instead of spending money on a ticket he let the man take his pass. When the conductor came through after the tickets he looked at the pass, then at the traveler and holding the bit of pasteboard up inquired: 'Is this your name on there?'

"Wh—why, of course," stammered the passenger. "Then you have changed his name since you rode with me last week," rejoined the ticket of the punch sarcastically, as he pocketed the pass. "It will cost you about two dollars and twenty-five cents to get to Chicago on this train." The man held back but it was no use and he had to bring out his pocket book. Since then the enterprising business man has been paying for what rides he takes. He makes it up by calling up all kinds of choice Oriental names, but the prospects are that his pass will not be returned. Now he knows just as well as any one that it was not transferable and would be forfeited if used by another person, but he was so anxious to get ahead of the company three dollars worth that he took the chances and was left.

"We Had Fondly Hoped."

The editor of the Recorder, who is the clerk of the board of education, objects to bringing the clerk of the board into local politics, and wishes, somewhat under the retentive item published in last evening's Gazette. The eyes in the Recorder of this morning:

"We had fondly hoped that the simple matter of local politics might be left outside of school matters, but our Gazette contemporary refuses to be comforted, and insists that all the party elements should be properly supplied upon the clerk of the Board of Education. Depend upon it, however, that the clerk of the board of education refuses to meet the sort of impeachment, and prefers to request that he be left alone to paddle his own canoe."

The above is very clever, when it is known that the Recorder editor, for the past two weeks, has endeavored to draw the chief engineer of the fire department officially into local politics, for the purpose of making political capital, when he knows, and every man who has ever belonged to the fire department knows, that the present chief engineer never whispered politics in the department. We are aware that the clerk of the board of education is an enthusiastic democrat, first, last and all the time, and as such he was elected a member of the board; we are also aware, by almost daily contacts with him, that as a general rule he forgets party when in the board meetings and labors faithfully for the interests of the schools. In this the chief engineer, who is an enthusiastic in the support of republican principles, is willing to join hands, and continue, as he has for thirty years or more, and insist that politics shall be kept out of both departments. The clerk of the board of education is not to be blamed for the doings of "John Jones," any more than the chief of the fire department is to be blamed for the doings of "John Jones." The Recorder being the first to commence throwing stones we are willing to concede the "armistice."

A Lively Runaway.

About half past two o'clock this afternoon the team of Jacob Walrath, of the town of Fulton, took fright at the cars and notwithstanding the efforts of their driver, the animals rushed down Milwaukee street at a terrible pace. Just as they passed Mrs. Woodstock's millinery establishment the sleigh struck a carriage in which were Mrs. William Brant and her daughter. The carriage was almost entirely demolished and the occupants thrown headlong to the ground while the horse fled from the wreck started on a run into the fourth ward.

Walrath's team continued on its course down Milwaukee street, but at the next corner Marshall Hogan ran out, and making a flying jump at the runaway's heads, he brought them to a standstill. Mrs. Brant was taken into Mrs. Woodstock's store, but was forced to leave sustained no serious injuries. The whole thing turned out very luckily, for with the street as crowded as it was, the wonder is that no other damage was done.

Will Run Independent.

JANESVILLE, April 2, 1886.

To the Voters of the Second Ward, City of Janesville:

GENTLEMEN: As it was impossible for me to be present at the caucuses last evening, being confined at home sick for the past week, at the request of many friends I will run as an independent candidate for the office of school commissioner, at the coming election.

—The Muncie, Ind. polo team arrived from Milwaukee at 4 p. m. via Chicago & Northwestern railway, and are quartered at the Park house. They are a good looking lot of men and look as though they could play polo. The Janesville team to-night will consist of Sperry, Beeson, Buchanan, Ridgely, Smith and Brown, and we think it is the strongest team ever seen on our floor.

—Fred H. Fellows, jeweler in the Lappin block, East Milwaukee street, has one of the most attractive displays of fine watches, jewelry, etc., in his show window. Fred's stock is rich and complete and the public appreciate his efforts in furnishing the best of goods at the lowest prices. Take a look at the display. You will find many rich and elegant designs in all grades of watches, jewelry, etc.

—At five o'clock this morning the temperature was 2 degrees below zero and at seven o'clock 2 degrees above zero. At this time there was a perfectly clear sky with a very light northwest wind. A few minutes after seven o'clock the city was enveloped in a dense fog which continued for about an hour when the fog disappeared, the remainder of the day being very pleasant with a temperature of 40 degrees and upwards. The morning will be noted as extremely cold for April.

—When the sheriff sat down to breakfast yesterday he never thought of the first of April, and after a few introductory remarks at the lunch and eggs he turned his attention to the breakfast table. Being innocent of all guile himself he suspected nothing wrong and it was not until he had taught up part of a hen duster in his teeth that he realized what deceptive things griddle cakes were. He tried to keep it still but the story spread around town and he had to set up cigars for the whole sale, as every one who had met murmured something about "Bap-jacks."

—M. E. Curtis in his new play, "Spot Cash" continues to amuse commercial travelers and similar elements of the play going by his portrayal of that bustling Hebrew drummer, Sam'l of Posen. The hero's adventures in the amusements play consist of being imprisoned in the safe of a hotel, of being blown up by an internal machine, of being mistaken for a murderer, etc. All of the situations are very laughable. The audience that nightly greet Mr. Curtis are very large standing room only being in order soon after the doors are open at each performance.—Chicago Tribune.

At the opera house to-morrow evening.

—This afternoon at half past two the funeral services of the late Mrs. Theodore C. Ballou were held at her late home in the second ward. There were many sorrowing friends present for the deceased, while quiet in her ways, did much good, and her memory will not soon fade away. She was a regular attendant at the Presbyterian church, and the Rev. W. F. Brown also conducted the services this afternoon paid a touching tribute to her memory. The music was very appropriate, the singers being Mrs. Rob't. Geddes, Miss Clara Jacobson and Mr. Robert Ains. The interment took place at Oak Hill cemetery, a large number of mourners following the remains to the grave. F. H. Davies, Fred Hatchinson, A. C. Munger and Robert Ains acted as pall bearers.

The National Republican, published at Washington, speaks in very complimentary terms of Mr. Warren Young, of that city, who is well known in Janesville, he having been a guest of the family of Dr. W. H. Judd, nephew of Mr. Young, for some weeks last summer, and sang in the Court Street and Baptist church choirs on several occasions. He is one of the secretaries at the White House. The Republican says: "Mr. Warren Young, the well known baritone assisted Mr. Jarvis Butler in his recent last Thursday evening at the Lafayette Square Presbyterian church, Baltimore, and secured a decided success. His selections were 'Toreador's Song,' from 'Carmen,' 'My love is like the red, red rose,' by Brandeis; Schubert's 'Hark! hark! the lark,' and Gounod's 'Jernusalem.' In all of these numbers Mr. Young's fine voice was very effective and he was cheered and applauded quite enthusiastically."

Asiathophos has given entire satisfaction in every case of neuralgia when I have recommended it. I have used it myself and it surpasses any preparation I have used in twenty-five years. It gives a general satisfaction. J. M. Wright, druggist, Chicago, Illinois.

APRIL WEATHER.

Mansell, the Rock Island weather prophet, publishes the following prognostications for the month of April:

"Mercury is in the longitudinal line with Jupiter on the 4th, and in a similar line with Uranus on the 5th; Mars is in a line with Jupiter the 12th, and in such a line with Uranus on the 21st. Mercury is in inferior conjunction with the sun on the 17th, and in aphelion the 27th. Venus is in descending node on the 24th.

The principal disturbing positions of the planets for April appear to be located about the 4th to 8th, 12th 14th to 21st, and 24th to 25th.

Remarks:—The temperature will probably average as high as the mean of the season both in the United States and Europe. April is expected to be a rather stormy month, with the worst disturbances about the dates named above. Sun spots are expected to be numerous again during this period."

THEY ALL DO IT.

What Railroad Officials Have to Contend With.

"Why is it," remarked a ticket seller the other day, "that no one considers it wrong to beat a railroad company? No matter who they are, in nine cases out of ten, travelers have an idea that, next to becoming a missionary, beating the company is as praiseworthy a thing as they can do. Just a few days ago one of the most prominent business men here in Janesville, a man who can draw his check for enough to buy a fair-sized road, tried on one of these underhand schemes. Last New Year's the company gave him a pass, and since then he has used it on an average about once a week. Even that didn't satisfy him so one day when he had to send a clerk down to Chicago instead of spending money on a ticket to let the man take his pass. When the conductor came through after the tickets he looked at the pass, then at the traveler and holding the bit of pasteboard up inquired: 'Is this your name on there?'

"Wh—why, of course," stammered the passenger. "Then you have changed like blazes since you rode with me last week," rejoined the knight of the punch sarcastically, as he pocketed the pass. 'It will cost you about two dollars and ninety five cents to get to Chicago on this train.' The man held back but was no use and he had to bring out his pocket book. Since then the enterprising business man has been paying for what rides he takes. He makes it up by calling on all kinds of choice Oriental rances, but the prospects are that his pass will not be returned. Now he knows just as well as any one that it was not transferable and would be forfeited if used by another person, but he was so anxious to get ahead of the company three dollars worth that he took the chances and was left."

"We Had Fondly Hoped."

The editor of the Recorder, who is the clerk of the board of education, objects to bringing the clerk of the board into local politics, and wishes somewhat in the editorial item published in last evening's Gazette. He says in the Recorder of this morning:

"We had fondly hoped that the simple matter of local politics might be left outside of school matters but our Gazette contemporary refuses to be comforted, and insists that all the party violence should be properly saddled upon the clerk of the Board of Education. Depend upon it, however, that the clerk of the board of education refuses to need the soft impeachment, and prefers to fight it as he best alone to publish his own cause."

The above is very clever, when it is known that the Recorder editor, for the past two weeks, has endeavored to draw the chief engineer of the fire department officially into local politics, for the purpose of making political capital, when he knows, and every man who has ever belonged to the fire department knows, that the present chief engineer never whispered politics to the department. We are aware that the clerk of the board of education is an enthusiastic democrat, first, last and all the time, and as such he was elected a member of the board; we are also aware, by almost daily conversations with him, that as a general rule he forgets party when in the board meetings and labors faithfully for the interests of the schools. In this the chief engineer, who is as enthusiastic in the support of republican principles, is willing to join hands, and continues, as he has for thirty years or more, and insists that politics shall be kept out of both departments. The clerk of the board of education is not to be blamed for the doing of "John Jones" any more than the chief of the fire department. The Recorder being the first to commence throwing stones we are willing to concede the "armistice."

A LATELY RUNAWAY.

About half past two o'clock this afternoon the team of Jacob Walrath, of the town of Fulton, took fright at the cars and outwithstanding the efforts of their driver, the animals rushed down Milwaukee street at a terrible speed. Just as they passed Mrs. Woodstock's millinery establishment the sleigh struck a carriage in which were Mrs. William Brant and her daughter. The carriage was almost entirely demolished and the occupants thrown headlong to the ground while the horse freed from the wheel struck on a run into the fourth ward. Walrath's team continued on its course down Milwaukee street, but at the next corner Marshal Hogan ran out, and, making a flying jump at the runaways' heads, he brought them to a stand-still. Mrs. Brant was taken into Mrs. Woodstock's store, but was found to have sustained no serious injuries. The whole thing turned out very luckily, for with the street so crowded as it was, the wonder is that no other damage was done.
